

Mumbai

Mumbai, formerly Bombay, the capital of state of Maharashtra, is the most populous city in India. Along with the neighbouring suburbs of Navi Mumbai and Thane, it forms, at 19 million, the world's fifth most populous metropolitan area. Mumbai lies on the west coast of India and has a deep natural harbour. Its port handles a large proportion of her maritime cargo.

Mumbai is the commercial and entertainment center of India, accounting for 25 per cent of industrial output, forty per cent of maritime trade, and seventy per cent of capital transactions to India's economy. Mumbai is one of the world's top ten centers of commerce by global financial flow, home to such important financial institutions as the Reserve Bank of India, the Bombay Stock Exchange (BSE), the National Stock Exchange (NSE) of India and the corporate headquarters of many Indian companies and numerous multinational corporations. The city also houses India's Hindi film and television industry, known as Bollywood. Mumbai's business opportunities attract migrants from all over India.
